making a **lasting** difference™

## Fibreglass Laminator

**Location:** Edmonton, Alberta **Education:** Grade 12 Diploma

### Responsibilities include:

- Operating machines and equipment or using hand tools to cut, shape, splice and fit plastic materials to form parts and assemblies
- Cutting and preparing composite materials from patterns to join parts and assemblies
- Making minor adjustments or repairs to products
- Using equipment to complete job duties including spray gun, grinder, and trimmer
- Other duties as required

### Required Qualifications:

- Grade 12 diploma is preferred
- Good understanding of the English language including verbal, written, and reading skills
- Ability to communicate effectively with others and work as part of a team
- Good problem-solving skills and attention to detail
- Comfortable working in a plant environment
- Ability to work at heights and within confined spaces when required
- Ability to work out of town to conduct field jobs as required
- Ability to work variable hours including shift work

### Additional Information

- Successful candidates will be required to supply their own steel-toed safety boots
- Successful candidates should have their own transportation as public transportation is not available
- Previous fibreglass experience would be an asset; however, ZCL welcomes entry-level applicants and will provide on-the-job training
- Physical capabilities include bending, crouching, kneeling, and the ability to stand for extended periods of time

This is a permanent full-time position in ZCL's Corrosion Plant located at 3608 – 69th Ave. Please visit [www.zcl.com](http://www.zcl.com) for more information about our company and our products.

To apply for this position, please email your resume to [jobs@zcl.com](mailto:jobs@zcl.com).

We thank all applicants for their interest, but only those candidates selected for an interview will be contacted.
