

ZCL COMPOSITES INC. ANNOUNCES TSX ACCEPTANCE OF NORMAL COURSE ISSUER BID

For Immediate Release

Edmonton, Alberta August 24, 2005... ZCL Composites Inc. (TSX: ZCL) (the "Company") announced today that the Toronto Stock Exchange has accepted notice filed by the Company of its intention to commence a normal course issuer bid.

The notice provides that the Company may, during the 12 month period commencing August 25, 2005 and ending August 24, 2006, purchase on the Toronto Stock Exchange up to a maximum of 899,210 common shares in total, being approximately 5% of the Company's issued and outstanding common shares. Currently, there are 17,984,218 common shares of the Company outstanding. The price which the Company will pay for any such shares will be the market price at the time of acquisition. The actual number of common shares which may be purchased and the timing of any such purchases will be determined by the Company and all such shares purchased shall be cancelled. There have been no previous purchases made by the Company pursuant its normal course issuer bid that commenced on August 19, 2004 and terminated on August 18, 2005.

The Company believes that, from time to time, the common shares have been trading at a price range which does not adequately reflect their value in relation to the Company's assets, business and future business prospects. As a result, depending on future trading prices and other factors, the Company believes that the acquisition of its outstanding common shares in connection with the normal course issuer bid may represent an appropriate and desirable use of a portion of the Company's available funds.

ZCL Composites Inc. trades on the Toronto Stock Exchange under the symbol "ZCL" and is Canada's largest manufacturer of composite liquid storage systems. ZCL's complete fuel storage systems marketed under the "Prezerver" trademark carry a \$2 million warranty against pollution.
