

ZCL Composites Inc. Signs Major Contract Extension

For Immediate Release

Edmonton, Alberta April 22, 2008... ZCL Composites Inc. is pleased to announce that it has been awarded a three-year contract extension by Petro-Canada for the supply of fibreglass tanks and related products for use in its operations across Canada. This extension is in effect through December 31, 2010.

Petro-Canada is an important customer and Alliance-Partner of ZCL and a cornerstone of the Company's business in Canada for many years. ZCL has secured supply agreements with most of the major and independent oil companies in Canada and through these long-term relationships, remains the industry leader in underground fuel storage.

"Contracts such as these are an expression of confidence in ZCL and our ability to consistently supply the high quality products and services that our customers' value," says Ven Côté, President. "We are committed to delivering the highest levels of service and value to our customers and this contract is evidence of the long term benefits of successfully meeting that commitment."

ZCL Composites Inc. trades on the Toronto Stock Exchange under the symbol "ZCL" and is North America's largest manufacturer of fibreglass underground storage tanks. ZCL's complete fuel storage systems marketed under the "Prezerver" trademark carry a \$2 million warranty against pollution.
