

Announcing: Xerxes by Shawcor

When Shawcor Ltd. purchased ZCL Composites Ltd. (ZCL) in April 2019, the acquisition expanded Shawcor's product portfolio and strengthened ZCL | Xerxes' position both in North America and the global marketplace.

This acquisition brought two strong tank brands, which were once individual companies, to the long-established Shawcor brand. When ZCL was established in 1987, it was the Canadian licensee for US-based Xerxes Corporation (Xerxes), which was established in 1979. The acronym ZCL represented the original Canadian company, Xerxes Canada Limited. Going forward, Shawcor's tank product line, will be returning to the original name for both tank companies: Xerxes.

The new Xerxes by Shawcor logo captures the origins of two legacy brands and reflects how integral the Xerxes product line of tanks is to the future of Shawcor Ltd. The transition to Xerxes by Shawcor will begin in Q4 2020 and continue throughout 2021.
